

E60 Entertainer Collection

The Entertainer in-ceiling speaker is a high performance entry-level speaker to meet all the needs of home audio entertainment with a polypropylene woofer and PEI tweeter. With the option for the speaker to be installed into the same new construction bracket as the Director 6 & 8" models, the E60 leaves listeners with unique flexibility to upgrade into the premium Director Collection without having to modify the existing cutout.

E60

Retrofittable & Upgradeable

The E60 is designed with the unique flexibility for it to be installed into traditional 6" speaker cutouts as well as the more premium in-ceiling models from Origin Acoustics. The mounting legs on the E60 can be extended to fit the Director REBR68 new construction bracket, expanding the overall cutout diameter from 8.25" to 8.75".

PEI Tweeter

This patented tweeter has the greatest output and is able to crossover much lower to either the woofer or the midrange improving both dispersion and the frequency response.

Paintable Low Profile Grille

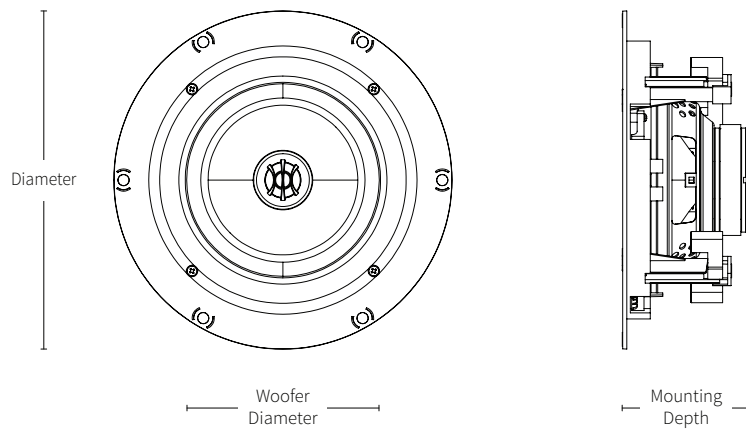

As expected with all Origin Acoustics speakers, the E60 delivers high performance audio while remaining completely concealed from plain sight with a sleek paintable bezel-less magnetic grille.

Lasts a Lifetime

The E60 carries the same limited lifetime warranty offered in the rest of Origin Acoustics speakers.

Specifications

Model	E60
Part Number	SCE60000
Woofer Cone	Polypropylene
Woofer Dimensions	6.5" (165mm)
Tweeter Dome	PEI
Tweeter Diameter	1" (25mm)
Frequency Response	48 Hz - 20 kHz
Impedance	8 ohm
Power Handling	5 - 100 Watts
Diameter	9.61" (244mm)
Grille Diameter	10" (254mm)
Cutout Diameter	8" (202mm) 8.75" (222mm)
Mounting Depth	3.52" (89mm)

*Not to Scale
